We are living in a different world

What worked 5-10 years ago.....

Only one way to win.....

Do something no one else is doing!!

Disruptive Thinking.... The Process

Discovery

“The most important advances are the least predictable ones”

Sir Frances Bacon

**“The biggest
killer of a good
idea is common
sense”**

COMMON SENSE

Just because you can, doesn't mean you should.

Six Steps to success.....

1. Take something that's working

2. Outline and contrast the clichés

- Think inside out
- Upside down
- Backwards
- Forward
- Move in the opposite direction

3. Create disruptive idea

What if.....

“Intentionally unreasonable statement....

Thinking in a different direction”

4. Work the details

5. Test it with a user/user group

6. Implement it!

That's it
